✓ How Bidding Works:

1. The Buyer's Agent must register on OffersByMetro.com and then register their buyer as explained in the video above. Be sure to upload the Verification of Funds or Lender Letter. Once you have decided to bid on the property, select your Closing date, Inspection Date and Escrow Amount. (You can change this information during each bid)
2. Enter Your Highest and Best! Bidding is completed in increments of \$1,000 minimum. The system is designed to raise your bid in increments of \$1,000 above the last bid placed, but you can increase your bid to your desired amount.
3. If you are outbid you will see this notification directly on the property bidding page. In addition the registered user will receive an e-mail / text alert notifying you that you have been outbid.
4. Any bid within the last 2 mins of the final bidding countdown will extend the bidding for a final 15 mins to allow for fair bidding for all. It will not be extended again after the additional 15 mins are added.

🏠 A Buyer's premium of .5% will be added to the accepted Offer Price, establishing the Final Sales Price. (Accepted Offer Price +.5% Buyer's Premium = Sales Price).
